Objective

Passionate Web Developer. Building skills in full-stack development. I'm currently learning the MERN stack (MongoDB, Express, React, Node.js) to become a full-stack developer. My current skills include: HTML, CSS, and JavaScript, Creating responsive websites, Building user-friendly interfaces. Though I haven't worked professionally yet, I'm eager to learn and excited to contribute as an intern. I'm actively working on projects – starting with frontend and soon expanding to full-stack.

Education

- **Patan Multiple Campus - TU** 2078 Batch
